Implantable Hearing Systems – International Hands-on and Acoustical Feedback Course.

Date: May 5.-7.2019

Venue: Dresden

Host: University Hospital Dresden, Otorhinolaryngology
and Saxon Cochlear Implant Centre

hearLIFE

Welcome

We are delighted to announce the Implantable Hearing Systems – International Hands-on and Acoustical Feedback Course.

The course provides the opportunity to experience hearing systems offered by MED-EL: Cochlear Implants, Middle Ear and Bone Conduction Implants. Live surgeries allow the participants to join the surgeon in the operating theater with the possibility of live discussions about surgical techniques.

The lectures cover indications, techniques and surgical implementation of the different hearing systems. The practical part offers hands-on training with the hearing systems. The practical sessions are supervised by experienced surgeons and engineers. The course is hosted by:

University Hospital Dresden, Otorhinolaryngology,
Prof. Dr. med. Dr. h.c. Thomas Zahnert and Saxon
Cochlear Implant Centre.

We wish you an interesting and informative symposium, as well as a pleasant stay in Dresden.

Program

May 5, 2019

7:00 pm – 9:00 pm

Individual arrival

Welcome reception at Coselpalais

May 6, 2019

7:45 am

Welcome and Introduction
