## Paediatric Hyperinflammation - Chances and Risks in Personalized Medicine

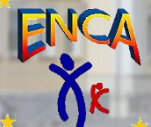

Symposium

25th November 2023

University Clinic Carl-Gustav-  
Carus Dresden

universität  
**uulm**

## Greetings

### Dear colleagues,

The consortium partners of the ERA PerMed project TIPS - Tailored Immunotherapy for Paediatric SIRS would like to invite you to the **symposium "Paediatric Hyperinflammation - Chances and Risks in Personalized Medicine"**.

Our symposium will take place on Saturday, **November 25, 2023** in the lecture hall of the Children's Hospital of the University Hospital Carl Gustav Carus from **8 am to 2:30 pm**.

Together with international experts we will discuss different aspects of hyperinflammation in childhood and beyond.

**TIPS** (Tailored Immunotherapy for Paediatric SIRS) is a project from personalized medicine for targeted management and better understanding of severe inflammatory response syndrome (SIRS) in children and adolescents.

Clinicians and scientists are working closely together in this interdisciplinary project, covering all disciplines relevant to children's health and development. The project aims to perform personalized immune profile analyses in order to identify diagnostic patterns and develop individualized therapies.

We would like to welcome you at the University Hospital Dresden and hope that you can attend the event.

Yours sincerely,

Prof. Dr. med. Catharina Schütz

Prof. Dr. med. Sebastian Brenner

## Program

- 8:00** Start of the industrial exhibition
- 9:00** **Catharina Schuetz:** Opening Remarks
- 9:05** **Evangelos Giamarellos-Bourboulis:** *The Time of Precision Immunotherapy in Sepsis Has Come: Lessons Learnt from the PROVIDE and ImmunoSep Randomized Trials*
- 9:30** **Antonio del Sol/ Sascha Jung:** *Computational Systems Biology - Approaches to Identify Novel Targets for Disease Treatment*
- 9:55** **Erkan Demirkaya:** *Early Stages of Diagnosis and Management of Suspected HLH/MAS*
- 10:20** **Morning Break**
- 10:50** **Timo Hautala:** *Clinical and Biological Experience on Hyperinflammatory Patient Cases*
- 11:15** **Markku Varjosalo/ Salla Keskitallo:** *From Systems Biology to Systems Pathology*
- 11:40** **Florian Steger/ Christophe Normand (ENCA):** *Empowerment of Participation of Children and Parents in Personalized Research and Management of Systemic Inflammatory Response Syndrome (SIRS)*
- 12:10** **Lunch break**
- 1:10** **Triantafyllos Chavakis:** *Bone-Marrow Mediated Trained Immunity*
- 1:35** **Amra Adrovic/ Sezgin Sahin:** *Personalized Therapy for Familial Mediterranean Fever*
- 2:00** **Eicke Latz:** *The NLRP3 Inflammasome: From Autoinflammation to Metaflammation*
- 2:25** **Catharina Schuetz:** Closing Remarks

## Registration

### Registration

The event will take place in **attendance** in the lecture hall of the Children's Hospital (house 21) and **online** via Webex.

We kindly ask for a binding **registration until November 24, 2023** via our website (**QR-Code**) or via email at **TIPS@ukdd.de**
